

Works with various international banks, hedge funds, family offices, and state-owned enterprises (SOE) to fund and acquire various projects globally.

Has been the mandate for Gold Bullion, and Diamond wholesale and to cater to the corporate needs for financial products.

Acts as a consultancy for Banks and Financial institutions. Acted as a consultancy to a significant Investment Fund in the city of London, United Kingdom. During this time the network for the company then changed and exploded into a plethora of groups of Ultra High net worth individuals and groups of SMEs.

Financial trading and brokering are now the focus of the business having been the primary business stream over the last year.

### **Financial Trading**

Financial trading, specializing in reselling and brokering of financial products. Have developed an international network of suppliers and end users alongside our banking relationships and logistics solutions.

Individual Asset Disposal includes: “Trophy” Assets such as Hotels, Aircraft and Property/Land.

Currently focusing on Renewable Energy, Petroleum Products AU metal and rough diamonds.

Sourcing assets through a large select and highly professional network of introducers with significant international reach globally focusing on USA, Asia, and European markets. Our investors to date have come from a similar niche network of private investors.

To continue to evolve and market our opportunities to a carefully selected group of larger players because of our success; meanwhile, retain our existing and loyal smaller clients with discretion commodities supply and commodity funding to joint Venture partnerships.

### **Business Platform**

Well experienced and successful with financial product transactions. Acts primarily as principal in buy/sale term contracts, positioning itself on:

- (1) On the supply side: Excellent relationships and business arrangements with many proven Banks/Providers offering reliable products and deliveries
  - (2) Ability to connect with end-buyers and to meet their desired products, specifications and appropriate
  - (3) Emphasis in longer term business transactions and relationships.
- 
- (3) Has concentrated on accepting the BG/SBLC for Private Placements, Monetization and other financial products. At present, its main target markets are the United States, Europe, Korea China, Singapore, Malaysia, Philippines, and South America.
